

# Interact real-time audio response.

The ability to respond and interact with real-time audio can be a powerful deterrent.

Real-time audio response is at the heart of Iverify's unique approach: the ability to interact in real time with customers and employees, respond to high risk situations, and coordi-

nate first responder activity in concert with real-time video feeds from alarms or guard tours. All responses come from full-time, highly trained security professionals in the "I".

#### **Additional Iverify Services:**

- Video Verification
- Intrusion Protection
- Fire Protection
- CCTV Systems
- Business Intelligence

**Iverify**<sup>™</sup>  
"This is security."

**Interactive Response** Employee-initiated monitoring (phone or panic button) supported by video surveillance, real-time audio response/ intervention and police notification if required.

**Reactive Response** After-hour response to alarm and motion-detected activity. Real-time audio response and police notification for intervention.

Response is a powerful deterrent to organized theft. It can be incorporated, as appropriate, into a variety of security scenarios, and scaled up or down as required.
